

DAYTONA

Stable, reliable POS terminal that's made to last

Great reliability and an industrial project: **DAYTONA** is ideal for point-of-sale applications that require larger workload in multiple environments. The terminal is developed to support **any kind of software application** thanks to different CPU performance levels. DAYTONA establishes a new standard for touchscreen terminals, with **top-notch RAM and SSD**. Thanks to the easy-access SSD with **detached slot**, it won't be hard to open the device in case of assistance. This terminal is developed to be flexible, and can easily updated to become your company's most loyal helper.

CHARACTERISTICS

1. Field upgradeable

Quickly upgradeable RAM and SSD to increase system specifications

2. Optional Wi-Fi® antenna

No need for cabling - easily upgrade to high speed wireless access

3. USB-C on all 4 sides of the terminal for proprietary peripherals

Consolidate peripheral integrations for attended and unattended applications

4. Multiple CPU options

Celeron® and i3 configurations: keep consistent look and feel across your business environment

5. Multiple operating systems

Compatible in both Windows 10 IoT, Windows 11 (only i3 model), and Linux

6. Cable management

Easily hide cables in the base for a clean installation
